

2017 Commonwealth Woodstove Change-Out Program Early March to Late August

Winter may be thawing, but stay one step ahead of next year's winter by upgrading your old woodstove with help from a rebate!

Rebates up to **\$1,750** are available to Massachusetts residents who replace their old, non-EPA-certified woodstoves with clean, efficient models. Residents who meet certain income requirements qualify for up to **\$3,000**.

New EPA-certified stoves:

- Burn wood more efficiently, cutting your annual fuel costs by **33%**
- Reduce smoke pollution that may trigger asthma and increase risk of heart and respiratory diseases for you and your neighbors
- Help prevent home heating fires by decreasing soot buildup in chimneys
